History

WESTFIELD CAPITAL MANAGEMENT COMPANY, L.P. was founded in 1989 and is an SEC-registered investment advisor dedicated to providing quality, separate account investment management services for institutions and wealthy individuals. The firm utilizes a team approach, currently comprised of eighteen investment professionals who are organized vertically by industry. Westfield invests growth equity portfolios across the capitalization spectrum employing in-depth, fundamental research and analysis. The firm currently manages $16.9 billion in assets. The growth of the firm is attributed to strong investment results and to the long-term relationships that we cultivate with our clients. Our 100% employee ownership aligns our interests with those of our clients.

Investment Philosophy

Westfield Capital Management favors investing in earnings growth stocks given our conviction that stock prices ultimately follow earnings progress and that they offer the best opportunity for investment return. We believe that reasonably priced stocks of companies with accelerating or under-appreciated earnings potential are best identified through in-depth fundamental research. The firm's experience, extensive research, and first-hand knowledge of company operations derived through on-site visits and meetings with management provide our competitive edge. We utilize a team approach within a disciplined investment process that enables our Investment Committee members to impact portfolios. Constant analysis and measurement of our investment process ensures that we are continually improving our approach to asset management.
